Department of the Air Force

Intent to Grant an Exclusive Patent License

Pursuant to the provisions of Part 404 of Title 37, Code of Federal Regulations, which implements Pub. L. 96-517, the Department of the Air Force announces its intention to grant E/M Corporation, a corporation of the State of Delaware, an exclusive license under: United States Patent No. 4,828,729 filed in the name of Phillip W. Centers for "Molybdenum Disulfide - Molybdenum Oxide Lubricants".

The license described above will be granted unless an objection thereto, together with a request for an opportunity to be heard, if desired, is received in writing by the addressee set forth below within sixty (60) days from the date of publication of this Notice. Copies of the patent may be obtained, on request, from the same addressee.

All communications concerning this Notice should be sent to: Mr. Samuel B. Smith, Jr., Chief, Intellectual Property Branch, Commercial Litigation Division, Air Force Legal Services Agency, AFLSA/JACNP, 1501 Wilson Blvd. Suite 805, Arlington, VA 22209-2403, Telephone No. (703) 696-9050.

Patsy J. Conner,
Air Force Federal Register Liaison Officer.

Department of the Army

Environmental Assessment and Finding of No Significant Impact for Disposal and Reuse of the Lexington Facility of Blue Grass Army Depot

AGENCY: Department of the Army, DOD.
ACTION: Notice of Availability.

SUMMARY: In accordance with Public Law 100-526, the Defense Authorizations and Amendments and Base Closure and Realignment Act of 1988, the Defense Base Closure and

Realignment Commission recommended the closure of the Lexington Facility, Blue Grass Army Depot, Lexington, Kentucky. This recommendation became law on January 5, 1989.

The environmental assessment evaluates the environmental impacts associated with the transfer of the entire facility (except for one building and its surrounding property) in phases, as any necessary remediation of buildings and land is complete, to the Commonwealth of Kentucky for light industrial and park/recreation uses similar to those for which the facility is currently being used. The facility is leased by the Commonwealth. Portions of the facility are being used by U.S. Special Operations Command (USSOCOM), the Kentucky National Guard, and the Retro Europe Mission. It is the Commonwealth's intention to permit the continued use of the facility by USSOCOM, the Kentucky National Guard, and the Retro Europe Mission and to create the setting for an industrial park of approximately 570 acres with a target goal of approximately 1,850 employees by the year 2,000. Also, the Commonwealth intends to use approximately 210 acres for park and recreational uses. Current employment levels at the Lexington Facility is approximately 640 personnel.

There would be no significant impacts in connection with the proposed action or the No Action/Caretaker alternative. Transfer to the Commonwealth of Kentucky would provide like use activities at a maximum employment level. Neither alternative would result in long-term significant direct adverse impacts on public health and safety. The proposed action of transfer/disposal would not contribute to significant cumulative impacts. Accordingly, a Finding of No Significant Impact has been prepared.

DATES: Written public comments and suggestions will be accepted by July 18, 1995.

ADDRESSES: Copies of the Environmental Assessment and Finding of No Significant Impact can be obtained by writing to the U.S. Army Engineer District, Louisville, Corps of Engineers, ATTN: CEORL-PD-R (Mr. Robert Woodyard, Chief, Environmental Analysis Branch), P.O. Box 59, Louisville, Kentucky 40201-0059 or by calling Mr. Robert Woodyard at (502) 582-5774 within 15 days of the date of the publication of this notice.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Woodyard at (502) 582-5774.

Dated: June 26, 1995.

Lewis D. Walker,
Deputy Assistant Secretary of the Army,
(Environment, Safety and Occupational Health) OASA (IL&E).

DEPARTMENT OF EDUCATION

[CFDA No. 84.031A, CFDA No. 84.031G]

Extension of Closing Date for Receipt of Applications for Designation as an Eligible Institution for Fiscal Year (FY) 1995 for the Strengthening Institutions and Endowment Challenge Grant Programs

The Department of Education published a notice in the **Federal Register** of March 13, 1995 (60 FR 13423) that established April 3, 1995 as the closing date for submission of applications to be designated as an eligible institution under the Strengthening Institutions and Endowment Challenge Grant programs for Fiscal Year 1995. The Department is reopening and extending the application period to July 14, 1995 to allow institutions that have already submitted eligibility applications to correct and clarify reported data.

For Applications or Information Contact: Strengthening Institutions Program Branch, Division of Institutional Development, U.S. Department of Education, 600 Independence Avenue, S.W., Suite 600, Portals Building, Washington, D.C. 20202-5335. Telephone: (202) 708-8839. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

Information about the Department's funding opportunities, including copies of application notices for discretionary grant competitions, can be viewed on the Department's electronic bulletin board (ED Board), telephone (202) 260-9950; or on the Internet Gopher Server at GOPHER.ED.GOV (under Announcements, Bulletins and Press Releases). However, the official application notice for a discretionary grant competition is the notice published in the **Federal Register**.

Program Authority: 20 U.S.C. 1057, 1059c and 1065a.

Dated: June 28, 1995.

David A. Longanecker,

Assistant Secretary for Postsecondary Education.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Deviations for Expedited Financial Assistance Projects

AGENCY: Department of Energy.

ACTION: Class deviations.

SUMMARY: The Department of Energy (DOE), pursuant to 10 CFR 600.4, hereby announces three deviations from its Financial Assistance Rules for an expedited financial assistance pilot program with commercial firms. The approval of these deviations ensures that the program goals and objectives are achieved and that public funds are conserved.

A process improvement team has been established to execute cost-shared projects with commercial firms using best commercial practices. The goal of this team is to test techniques for improving DOE's process for entering into cooperative agreements for research and development with commercial firms.

The three deviations have been approved because they are required to achieve program objectives. The first deviation waives the requirement for a principal program purpose determination, the second deviation will permit budget periods in excess of 12 months; and the third deviation permits DOE to withhold payments following verbal notification.

EFFECTIVE DATE: July 18, 1995.

FOR FURTHER INFORMATION CONTACT:

Cynthia Yee, Office of Clearance and Support, (HR-522.2), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-1140.

SUPPLEMENTARY INFORMATION: In this notice, the DOE announces that, pursuant to 10 CFR part 600, the Deputy Assistant Secretary for Procurement and Assistance Management has made a determination of the need for three deviations to the DOE Financial Assistance Rules. The determination document, dated June 20, 1995, provides for deviations for recipients as explained below (i.e., a "class deviation").

Deviation Number 1 waives the requirement for execution of Principal Program Purpose Determinations required by 600.5. The program office

will be represented on the process improvement team, thereby ensuring that the program is appropriate for financial assistance, and a transaction determination will be made by the Contracting Officer.

Deviation Number 2 deviates from the 12-month budget period limitation contained in 600.31(b). This deviation is necessary to permit awards to projects with budget periods in excess of 12 months, if necessary to meet project objectives.

Deviation Number 3 permits the withholding of payment for failure to meet established milestone schedules with verbal notice of failure to make progress, thereby providing adequate advance notice of non-compliance. This is a deviation to 600.122(h) and 600.28 and furthers the program objective of reducing administrative burden.

This deviation expires on September 30, 1997.

Issued in Washington, DC June 20, 1995.

Richard H. Hopf,

Deputy Assistant Secretary for Procurement and Assistance Management.

[FR Doc. 95-16296 Filed 6-30-95; 8:45 am]

BILLING CODE 6450-01-P

Financial Assistance Award: Petrosurveys, Inc.

AGENCY: Department of Energy.

ACTION: Notice of Intent.

SUMMARY: The U.S. Department of Energy announces that pursuant to 10 CFR 600.6(a)(2) it is making a financial assistance award under Grant Number DE-FG01-95CE15626 to Petrosurveys, Inc. The proposed grant will provide funding in the estimated amount of \$98,178 by the Department of Energy for the purpose of locating energy sources through development of the inventor's "System for Discovering the Locations of Sea Floor Seepages of Petroleum."

SUPPLEMENTARY INFORMATION: The Department of Energy has determined in accordance with 10 CFR 600.14(e)(1) that the unsolicited application for financial assistance submitted by Petrosurveys, Inc., is meritorious based on the general evaluation required by 10 CFR 600.14(d) and the proposed project represents a unique idea that would not be eligible for financial assistance under a recent, current or planned solicitation. The new technology is expected to complete the prototype development of an apparatus to locate and map sea floor petroleum seepages using a ship-borne, instrumented surveying system that is an extremely cost-effective alternative to conventional exploration techniques. The technology provides a faster and

cheaper way to locate oil seeps compared to seismic surveying. The applicant's exploration method will cover a greater area of the sea with an equivalent degree of accuracy than with current methods. Therefore, the technology presents a higher probability of opening up new oil fields, and thus will have a long-term beneficial effect upon the Nation's energy supply.

The inventor and principal investigator, Dr. Keith F. M. Thompson has extensive experience in petroleum geochemistry. He has written numerous journal articles and is an active member in several geochemical and geological societies. For the proposed project, Dr. Thompson will utilize the marine engineering staff and facilities of HBOI. The proposed project is not eligible for financial assistance under a recent, current or planned solicitation because the funding program, the Energy Related Invention Program (ERIP), has been structured since its beginning in 1975 to operate without competitive solicitations because the authorizing legislation directs ERIP to provide support for worthy ideas submitted by the public. The program has never issued and has no plans to issue a competitive solicitation. This award will be made 14 calendar days after publication to allow for public comment.

FOR FURTHER INFORMATION CONTACT:

Please write the U.S. Department of Energy, Office of Placement and Administration, ATTN: Sara Wilson, HR-561.21, 1000 Independence Ave., S.W., Washington, D.C. 20585.

The anticipated term of the proposed grant is 18 months from the date of award.

Lynn Warner,

Contracting Officer, Office of Placement and Administration.
